Job Opportunity

Health and Safety Coordinator, Industrial Hygiene
Teck Resources Ltd – Fording River Operation, near Elkford, BC
Posting Date: October 14, 2020

Closing Date: October 28, 2020

Reporting to the Health and Safety Supervisor, the Occupational Hygienist is responsible for maintaining and implementing exposure reduction strategies in the Occupational Health and Hygiene programs at our Fording River Operation.

We are looking for someone with outstanding interpersonal, communication, and leadership skills. Who is a strong problem solver, can prioritize workloads, and keep organized and accurate records. We also require someone who is analytical and adaptable, with a passion for continuous improvement.

You will have the opportunity to lead the exposure reduction plan at our largest and most sophisticated mine. You will also collaborate closely with our centralized occupational hygiene team and gain exposure to other groups across Teck.

Join us in the breathtaking Elk Valley of British Columbia. Here you will find outdoor adventure at your fingertips. Whether it's biking and skiing, or the laid-back atmosphere of fishing and hiking, there is something for everyone! Come experience what work life balance is all about!

Responsibilities:

- Be a courageous safety leader, adhere to and sponsor safety and environmental rules and procedures
- Develop, recommend, implement, and maintain policies, programs, and procedures to effectively protect the health of employees
- Initiate, develop, and implement physical and chemical exposure assessment studies, evaluate the data acquired, and recommend mitigation programs
- Coordinate periodic audits of hygiene and occupational health programs and ensure monitoring and reporting programs meet QA/QC and documentation standards
- Provide mentorship, technical training, and informational presentations to improve knowledge of the safety team and keep employees and

management aware of hygiene and occupational health concerns, programs, and regulatory issues

- Keep informed on new developments in the field of occupational hygiene and health and safety legislation
- Represent Fording River Operations and Teck on partner groups and maintain a constructive liaison with regulatory agencies and the union

Qualifications:

- Certificate or diploma in Occupational Health and Safety
- Hold, or be working towards, a Certified Industrial Hygienist Certificate from the American Board of Industrial Hygiene, or a Registered Occupational Hygienist, registered with the Canadian Registration Board of Occupational Hygienists, or equivalent certification
- Minimum five years' of experience related to the control of occupational exposures in mining or heavy industry
- Strong digital literacy, particularly with the Microsoft Office Suite and experience with use of Health and Hygiene software solutions such as Cority

At Teck, we value diversity. Our teams work collaboratively and respect each person's unique perspective and contribution.

Qualified applicants interested in joining a dynamic team are encouraged to submit a resume and cover letter electronically.

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.

Teck is a diversified resource company committed to responsible mining and mineral development with major business units focused on copper, steelmaking coal and zinc, as well as investments in energy assets.

Headquartered in Vancouver, Canada, its shares are listed on the Toronto Stock Exchange under the symbols TECK.A and TECK.B and the New York Stock Exchange under the symbol TECK.
